WORK EXPERIENCE

Mavoix Technology Solutions Private Limited

March 2026 – Present

Fullstack Web Developer Intern

Bangalore, Karnataka

- Contributed to the development of a full-stack internal dashboard using MERN stack and Next.js, focusing on building stable APIs and integrating them with a responsive frontend.
- Designed and implemented RESTful APIs for core business functionalities, while structuring MongoDB schemas to ensure efficient data storage and retrieval.
- Built and maintained reusable UI components and assisted in testing and debugging workflows to improve overall application reliability.

PROJECTS

Business Admin Dashboard

Next.js | Tailwind CSS | Node.js | Express | MongoDB

- Developed a full-stack admin dashboard to manage business data and operations, with a structured backend and responsive frontend interface.
- Implemented RESTful APIs and database models to support CRUD operations and consistent data flow across the system.
- Designed clean and responsive UI components using Next.js and Tailwind CSS, focusing on usability and performance.

API Sentinel – API Performance Monitoring System

Next.js | Node.js | RabbitMQ | MongoDB | PostgreSQL

- Built an API monitoring system to track uptime, latency, and error rates across multiple endpoints.
- Implemented asynchronous processing using RabbitMQ to handle scheduled health checks and background tasks efficiently.
- Developed a dashboard to visualize performance metrics, enabling easier identification of system behavior and trends.

EDUCATION

Visvesvaraya Technological University
